Jane Veldhoven is truly a leader in her profession. She was the first hands-on organizer in Atlantic Canada and through extensive study and experience, she was designated a certified professional organizer in January 2008, one of only five women in Canada. She helps entrepreneurs, managers and their teams and other busy professionals become more successful by teaching them how to organize their time, their space and their stuff both at work and at home. She specializes in providing in-house training to businesses, office organizing, design services and one-on-one consulting.

Inspired by a brightly coloured striped fabric that was just waiting to be re-interpreted, this utilitarian space takes on a whole new meaning. All of the functional elements are in this laundry/storage room but we've jazzed it up just for fun. Bright colours are complemented by the deep-blue hue of the unique Marmoleum floor and the use of stainless and chrome, mixed with a dose of black. High-tech appliances from Samsung certainly make doing the laundry a snap. Condo living always presents the challenge of where to put the "stuff" of life, so we have combined laundry and storage in one carefully planned space. The mobile folding table can easily be moved around and the industrial shelving is perfect for storage. There is a place for everything and who wouldn't be motivated to keep this fun and funky space well organized? Doing the laundry will never be the same again.
